

VIJAY KUMAR BANDARU

Personal Mission

Helping organizations improve by enabling individuals, teams, and leaders to improve their ability to improve.

Executive Summary

Accomplished Agile Transformation Leader, Enterprise Consultant, Executive Coach, and Technology Leader with 28+ years of experience delivering business value through technology, product development, software engineering, and enterprise Agile transformation across Gaming, IT Services, and Banking & Financial Services.

Built a progressive career through leadership roles including Software Engineer, Technical Lead, Architect, Project Manager, Delivery Manager, Agile Coach, Consultant, Trainer, and Leadership Coach, bringing a unique blend of technical expertise, delivery leadership, organizational transformation, and executive coaching. For the past 13+ years, partnered with executives and leadership teams to lead enterprise Agile transformations, strengthen organizational agility, develop high-performing leaders, and improve business outcomes. Successfully designed and implemented large-scale Agile transformation initiatives using LeSS and SAFe across geographically distributed organizations of 1,200–2,000 employees.

Creator of the A-B-C-D-E Agile Transformation Framework—Assess organizational readiness, Build a transformation roadmap, Conduct the transformation, Develop internal Agile capabilities, and Expand Agile adoption across the enterprise—helping organizations build sustainable, self-improving Agile capabilities.

Known for combining strategic thinking with practical execution, building trusted relationships across all organizational levels, and delivering measurable business outcomes through transformation consulting, executive coaching, leadership development, and professional training.

Outstanding Scrum Trainer
"Interactive, practical, and highly engaging."
Rukshan N.

Excellent Mentor "Made complex concepts easy to understand."
JK

The session delivered by Vijay Bandaru was truly exceptional. Vijay's engaging delivery style and structured approach helped us clearly connect AI applications with agile practices, enabling us to think beyond traditional frameworks and embrace innovation confidently.
Siddu

"An excellent CSPO learning experience. Vijay's engaging teaching style, practical examples, and creative visual explanations made complex Product Owner concepts easy to understand. Highly recommended for anyone looking to master Scrum and Product Ownership."
Krishna Dharanipragada
